Dear Parent/Carer/Neighbour,

RE: Redevelopment of Waseley Hills High School

We have completed the enabling works for the first block at Waseley Hills High School and have made good progress see the photo below, we are now working on the foundations for the building.

We have completed our site compound and the schools car parking is back to normal, the soil stored to the side of the compound will be seeded with grass soon.

On site we have completed the enabling works and build the new access road across the top of the school site, the foundations and retaining wall are in the process of being installed and the steel frame for the new building is being fabricated off site.

To give an idea of scale we have moved 2054 cubic metres of clay and topsoil, imported 667 cubic metres of stone and 300 cubic metres of concrete.

We have kept a road sweeper on site for this phase of the works to minimise the impact of our works.

Off site we along with our design team and subcontractors have participated in the careers fair held by the school and had an interesting day with well researched questions from the pupils.

We have also held the groundbreaking ceremony attended by Waseley Hills High School, feeder primary schools and members of the local community.

The works are being carried out in a phased manner and we would like to assure you that we will put up secure fencing and notices before we start works, we will also be engaging with the pupils of both Waseley Hills and Holywell primary to explain to them what we are doing and the hazards of our works.

We would like to reassure you that Tilbury Douglas are Considerate Constructors, we will always seek to complete our work in a way which causes minimal disruption and where disruption cannot be avoided we will communicate with you in advance and put in as many mitigating measures as we can. If you have any questions or queries throughout the project you have my contact details at the end of the letter.

The scheme is be registered with the Considerate Constructors scheme which is independent of Tilbury Douglas and will give you another means of contacting us should you wish to.

We will produce this newsletter on a bimonthly basis to keep you informed.

If you have any queries, please contact the undersigned at;
