

July 2024

Dear Parent/Carer/Neighbour,

**RE: Redevelopment of Waseley Hills High School**

We have completed the enabling works for the first block at Waseley Hills High School and have made good progress see the photo below, we have completed the foundations and are now working on the ground floor slab for the first building.

We are planning ahead for works during the summer holidays, the steel frame will be erected on site, the incoming power and water will be trenched and laid from source in the road up to the new school.

The main entrance to the school will be closed with access to the school via the car park gate whilst we trench the services within the green area on the plan below.

The final link out to the other side of Gunner Lane will be completed in the last 2 weeks of the holiday period. Our contractor will put up traffic management for this short period of time and in the weeks prior to this we will put up some advance warning notices.

The works continue to be carried out in a phased manner and we would like to assure you that we will put up secure fencing and notices before we start works, we will also be engaging with the pupils of both Waseley Hills and Holywell primary to explain to them what we are doing and the hazards of our works.

We would like to reassure you that Tilbury Douglas are Considerate Constructors, we will always seek to complete our work in a way which causes minimal disruption and where disruption cannot be avoided we will communicate with you in advance and put in as many mitigating measures as we can. If you have any questions or queries throughout the project you have my contact details at the end of the letter.

The scheme is be registered with the Considerate Constructors scheme which is independent of Tilbury Douglas and will give you another means of contacting us should you wish to.

We will produce this newsletter on a bimonthly basis to keep you informed.
